Profile

Highly skilled Front-End Engineer adept in crafting captivating user experiences through mastery of React.js and Node.js. With a proven track record of developing exceptional projects, I seamlessly blend creativity with technical expertise to deliver cutting-edge solutions. Passionate about pushing boundaries in web development, I thrive in collaborative environments where innovation flourishes. Ready to leverage my talents to drive impactful results and elevate your team's success.

Projects

My Portfolio - React.js

[Website](#)

portfolio website, built with React, showcases my web development skills through interactive, responsive design. It features sections for my projects, skills, and experience, highlighting my proficiency with modern technologies. The site is fast, user-friendly, and optimized for all devices, offering a seamless browsing experience.

Fashion Hub eCommerce - MERN

[Website](#)

Fashion hub is a modern e-commerce platform built with the MERN stack, providing a smooth and interactive shopping experience. Browse a vast product catalog, use real-time search and filters, manage orders, and securely complete transactions. With user-friendly design and responsive functionality, fashion hub ensures a seamless shopping experience on desktop, tablet, or mobile devices.

Dreamify - Your Holiday Destination - Node.js

[Webiste](#)

Dreamify - Your Holiday Destination is a travel platform built with EJS, offering dynamic content and real-time updates. Discover destinations, book accommodations, and explore local experiences. With secure bookings, personalized recommendations, and responsive design, AirBnb provides an interactive, user-friendly travel planning experience across all devices.
